

Attendance Policy

Dear Skaters & Parents,

As show time approaches and practices begin, it is important to remember that practice time is limited and that we are using only 4 practices to put together each number. Therefore it is important to be on-time and ready to go for all assigned practice times. I will try to keep your practice times very close to what you are currently practicing until the last few weeks for your convenience.

I realize that many of you are involved in other activities; however, to be fair to the other skaters in your group, there is an ice show attendance policy. If you miss 3 practices for a number I will have to take you out of that number.

Remember... to be early is to be on time, and to be on time is to be late. Make every effort to arrive in plenty of time to get your skates on, and to stretch out prior to your scheduled practice time.

If you must miss a practice, please make every effort to contact your coach or the director ASAP.

Thank you in advance for your understanding and cooperation.
